Profile

A graduate student with master's in computer science and 3+ years of professional experience in software industry, seeking a challenging and rewarding full time opportunity which effectively utilizes my analytical, technical, and interpersonal skills

Technical Skills

- Languages: C#, SQL, T-SQL, HTML, CSS3, XML JavaScript, jQuery, ASP.NET, php, Java
- Frameworks: ASP.NET MVC, REST, AngularJS, Bootstrap, AJAX, JSON
- Tools: GitHub, Visual Studio, NetSuite, JIRA, FileZilla, Mixpanel, Jenkins, AWS, SSMS, Oracle, PowerShell

Education

- Master's in Computer Science - Cal State Unv, Long Beach   August 2015- December 2016
- Bachelor of Engineering in Information Technology - Mumbai University   August 2011- May 2015

Work Experience

- **Software Developer –** Motionsoft Inc. (Rockville, MD)   November 2019 – Present
  - Developed web application solutions using C# and ASP.NET
  - Developed client-side scripting using HTML, CSS, JavaScript, jQuery, AJAX
  - Designed and implemented database schemas and integrate them with web applications.
  - Analyzed SQL query and Stored Procedures for performance and tuning
  - Analyzed existing systems, reviewed security architectures, and developed engineering solutions that integrate information security requirements to proactively manage information protection
  - Interfaced application with peripheral hardware such as receipt printers, sig pads, payment devices
- **Technical Support Engineer II -** Motionsoft Inc. (Rockville, MD)   July 2017 – November 2019
  - Create complex SQL scripts to identify and clean data specific issues to run on Production sites
  - Debug issues to find the error in the application code, fix it and escalate it to Senior Developers for review
  - Report code-based issues including data being set into the database incorrectly as well as data being handled incorrectly through code
  - Optimized poor performing SQL scripts and Stored Procedures
  - Managed and maintained AWS database for internal troubleshooting of software issues
  - Technologies: C#, .Net, MVC, Visual Studio, T-SQL, SQL, HTML, CSS, JavaScript, JQuery, AWS
- **Web Developer –** Pronear Inc (Los Angeles, CA)   February 2017 - April 2017
  - Developed and maintained a responsive landing website using HTML5 CSS3, JavaScript, jQuery
  - Used php to validate and store user data in .csv format.
  - Set up tracking to track user events on website
  - Technologies worked with: HTML5, CSS3, JavaScript, JQuery, PHP, Mixpanel
- **Software Engineer Intern -** Persistent Computer Services (Mumbai, India)   July 2014 - July 2015
  - Collaborated with the Project Manager and development team members to develop high quality product
  - Applied object-oriented concepts to develop multi-threaded applications.
  - Worked in a team to create and maintain web applications accessed on desktop environments.
  - Experience in tuning poor performing scripts
  - Experience in troubleshooting and debugging software issues
  - Technologies worked with: .Net, C#, Visual Studio, HTML, CSS, JavaScript, JQuery, SQL
